WORK EXPERIENCE:

BlueMountain Capital Management, LLC, New York, NY USA

November 2013 – September 2017

Diversified Alternative Asset Manager, \$22 billion AUM

Treasury Group Analyst

- Created the database for unifying all portfolio position, price and valuation data across funds. This became the foundation upon which all Liquidity Management processes were built
- Wrote C# solutions for parsing and storing all daily Prime Broker statements. This gave us immediate visibility into our counterparties' calculations of our collateral requirements, fees and charges
- Managed the deployment of 'Blockstore' to the Operations Department. Blockstore is a proprietary data management system developed by the Quantitative Department
- Built the model for estimating revenue we generated for each of our dealers. This was used by management in pricing negotiations with the dealers
- Built tools for monitoring and validating our debit and various currency balances. This knowledge served us in optimizing our asset allocations to minimize financing charges
- Built tools for reporting our exposure to each Prime Broker. Exposure could be reported by asset type, strategy and/or country of risk, among other criteria
- Served as liaison between the Operations dept. and the Quantitative departments

Deutsche Bank Securities, Inc., New York, NY USA

June 2009 – November 2013

Interest Rate Derivatives, Global Business Services, Associate

- Analysis and reporting of profit & loss, positions, risk, attribution, cash flows and market data to management and regulators
- Partnered with accounting for month-end and year-end finalization of profit & loss attribution for reporting to management
- Designed and built the department's first tool for querying risk and profit & loss attribution
- Served as the Global Business Services liaison to the Federal Reserve regulatory projects team

Credit Suisse (USA) Inc., New York, NY USA

January 2006 – June 2009

Derivatives Support and Control, Equity Derivative Documentation, Senior Analyst

- Led the Equity Derivative Documentation team, covering Corporate Financing, Monetization and Private Client businesses
- Represented the Equity Derivatives Documentation group in discussions with Legal Counsel and IT for all projects
- Wrote and coded the full library of Documentation drafting and reporting tools for the Americas
- Designed and built the firm's only prime-number based document generation system

Mercer Human Resource Consulting, Denver, CO USA

June 2005 – August 2005

Health Benefits, Intern

- Analysis of proposals for Health and Benefits plans for corporate clients
- Coordinated insurer proposals, then analyzed competing bids for client excess-loss insurance needs
- Maintained electronic client records using BenefitPoint
